

Road of bones Expedition — Detailed description

Trip Length: 8 Group: 1-4 Departure: Fixed Period: July - September

Trip overview

This expedition is for those who seek unknown emotions and new impressions. For those who want to move away from the beaten tourist routes and, at the same time, immerse themselves in the boundless kingdom of harsh nature with its majestic history of human exploration.

During the tour you will visit the port city of Magadan, the famous Kolyma highway or "road of bones", the Kolyma hydroelectric power station, an abandoned ghost town, the Pole of Cold, the capital of Yakutia and the highway through permafrost.

The Kolyma highway is located between Yakutsk and Magadan, 2032 km long. It is also known as the "road of bones", because the Kolyma highway became one big mass grave for thousands of people during its construction.

The Lena Highway (A-360) runs mainly through permafrost. In 2006, the road was recognized as one of the most dangerous roads in the world. Some drivers compared this road to hell. Until 2014, asphalt pavement was only on small sections in the Tynda, Neryungri and Aldan area, and the road becomes difficult to pass during snowmelt or heavy rains. Today, only some sections of the road are unpaved. The length of the highway is 1,157 km.

This program is an expedition. The route description is a general plan of the expedition. In case of any force majeure or weather conditions, the organizers have the right to make changes.
