

Baikal Buggy Winter Adventure — Detailed description

Trip Length: 3 Group: 4-6 Departure: Fixed Period: March

Trip overview

Do you want an adventure with new feelings? Especially for you BaikalNature made an exclusive tour where you will have a unique circular itinerary offering you a total change of scenery each kilometre.

Buggy is a comfortable and practical vehicle with a very high off-road performance often used on rally rides will get over Baikal ice ridges and through cracks. Your trip will be very safe because of spike tires, low seat, stable chassis and firm body. These are the main characteristics that differ buggy from quad bikes and snowmobiles. This little "bug" is very easy to drive having or not experience to drive a car. All you need is to press accelerator pedal or the brake.

You will enjoy driving; moreover, we propose you a unique itinerary: starting from the Maloye More strait, we will stop near the Khorin Irgui cape (Mare's head), we will drive along the western coast of Olkhon island for discovering icy grottoes with splashes – "sokuyi" till the Khoboy Cape – the northernmost point of the island. Then, we will drive to the geographical centre of the lake where we will spend a night in a real BaikalIceCamp! The second day, we will go along the eastern Olkhon island shore: it's uninhabited and wild far away from bitten tourists trails.

Allow the system of "three layers":

- The first layer, called "second skin", determines the performance of the other two layers. It will transport sweat to the next layer and dry quickly to avoid cooling after exercise. Therefore forget the cotton retains moisture in the skin and choose underwear in synthetic fabrics.
- The second layer must keep the heat of the body as long as possible. Warm synthetic or mixed (wool or fleece turtleneck sweater) fabrics, that dry quickly, are preferable.
- The third layer should protect you against wind and moisture. Choose a jacket, long enough, 100% waterproof, preferably with hood.

We recommend you to pack all your stuff in two bags: a small backpack and a large travelling bag.

SMALL BACKPACK: will be useful for carrying your personal belongings during the day (camera, film, personal medication, bottled water, etc.) You will also use it as hand luggage during air travel for all your heavy (to lighten the travel bag in the luggage compartment), fragile (camera, etc.) and necessary (toilet bag, etc.) things.

BIG TRAVEL BAG or BIG BACKPACK: must contain the rest of your stuff. It will be in the luggage compartment during the flight. It will be transported by vehicles.
