

Seals & Ice Floes — Detailed description

Trip Length: 6 Group: 5-12 Departure: Fixed Period: April

Trip overview

During Baikal's off-season, we invite you to discover a majestic period when all nature of Baikal, from every leaf to cute animals, awakens from winter cold and dark nights to be filled with light and warmth. You will be a witness of this amazing phenomenon and go along the most beautiful and remote routes, that are accessible only to a small number of people. Our expedition is dedicated to the unique nature and the pacifying energy of Baikal. The Baikal seal as the main symbol of Baikal and its embodiment will become our guiding star in our expedition.

Lake Baikal is the only place on Earth where it is possible to observe the local endemic, the lake's freshwater seal. To our time scientists could not solve the riddle of its appearance in the lake. However, many researchers support the hypothesis that the seals went down the Yenisei River from the Arctic Ocean and adapted themselves to the conditions of the freshwater lake.

In the spring Baikal seals bask in the bright and warm sun on the drifting ice floes of Lake Baikal. After a long winter, they can finally get to the surface where they like to spend most of their time. We will follow in the footprints of the seal to meet it and take stunning photos, one of the unique animals in the world. You can easily call Baikal seal as the most photogenic and cute animal you have ever seen in your life. For our photo tour we will use an old technique of seal hunters, the only difference is that you will only be armed with your cameras, wearing special white costumes!

The tour is led by Pavel Ageychenko, founder of BaikalNature, who will share with you his secrets as he has already met Baikal seals in the wild many times.

Together you will take comfortable and safe transport "hovercrafts", that are capable for riding on ice, land and water, to discover the picturesque western coast of Lake Baikal with its cozy bays and capes, the largest island Olkhon, the Maloye More and the Big Sea of Baikal, which is just separated by the Olkhon Island. The highlight of the tour will be crossing the lake in its deepest part and visiting the largest rookery of the Baikal seal, where you will spend several nights in a cozy base. Also, you will discover the pearl of the eastern shore of Lake Baikal - Chyrvykuysky Bay with its hot springs. We will not miss the opportunity to relaxing here, and you can also try ice fishing for the first time!

Tour is a kind of expedition, as the route may vary depending on the conditions, but we guarantee vivid emotions, harmony and incredible landscapes. And of course, if we are lucky, we will definitely meet the main symbol - Baikal seal!

Checklist & Equipment

You will need in Russia in winter:

- to protect yourself from the cold weather;
- to protect yourself from the wind;
- to protect your feet from moisture;
- to protect yourself from the sun's reflection from ice and snow.

Allow the system of "three layers":

- The first layer, called "second skin", determines the performance of the other two layers. It will transport sweat to the next layer and dry quickly to avoid cooling after exercise. Therefore forget the cotton retains moisture in the skin and choose underwear in synthetic fabrics.
- The second layer must keep the heat of the body as long as possible. Warm synthetic or mixed (wool or fleece turtleneck sweater) fabrics, that dry quickly, are preferable.
- The third layer should protect you against wind and moisture. Choose a jacket, long enough, 100% waterproof, preferably with hood.

BaikalNature offers visa support and has created "BaikalNature letter of invitation" package. If you buy a BaikalNature tour, this package is absolutely free; when you buy any other BaikalNature service, you will have to pay for this package.

Money

The Russian currency is ruble. In all cities and many large villages of Russia, you can easily withdraw rubles, using a Visa or MasterCard, from ATMs, located in banks, department stores or hotel lobbies, some of them are open 24 hours a day. If you have euros or dollars with you, exchange offices will allow you to change them easily in the cities, seldom in the countryside. However, it can be difficult to exchange traveler's checks, even in cities.

Tipping

All persons who compose the BaikalNature travel team (guides, drivers, cooks, etc.) are paid a decent wage for their services and do not expect any tips from you. So you have no obligation to leave anything. If you really want to express your satisfaction by leaving a gratuity, and if it is in foreign currency, be aware that torn or glued coins and banknotes cannot be exchanged. Anyway, thank you for your tips, left at your discretion in envelopes.

You need to get a health examination before a great trip. Consult your doctor. Get a dental checkup. If you have health problems that could worsen during the trip, make sure you have taken all your medications with you.
