

Baikal Seal Observation — Detailed description

Trip Length: Group: 1-4 Departure: Fixed Period: December - January

Trip overview

Lake Baikal is the only place on earth where it is possible to observe nerpa, the lake's freshwater seal. To our time scientists could not solve the riddle of its appearance in the lake. However, many researchers support the hypothesis that the seals went down the Yenisei River from the Arctic Ocean and adapted themselves to the conditions of the freshwater lake.

In late March – early April seals give birth to the young whose fur is white. The nature itself has seen to their safety having made them imperceptible on ice: seal-calves spend all their time on ice in their lairs near the holes waiting for their mothers to feed them.

We will go in motorcycles with sidecars by ice to meet nerpas in the strait of Maloye More (Small Sea) where ice is still solid enough. We will use an old technique of nerpa hunters, the only difference is that you will only be armed with your cameras! During the tour you will also discover rock carvings, ice fishing, sites of shamanic cult and breathtaking scenery!

Checklist & Equipment

You will need in Russia in winter:

- to protect yourself from the cold weather;
- to protect yourself from the wind;
- to protect your feet from moisture;
- to protect yourself from the sun's reflection from ice and snow.

Allow the system of "three layers":

- The first layer, called "second skin", determines the performance of the other two layers. It will transport sweat to the next layer and dry quickly to avoid cooling after exercise. Therefore forget the cotton retains moisture in the skin and choose underwear in synthetic fabrics.
- The second layer must keep the heat of the body as long as possible. Warm synthetic or mixed (wool or fleece turtleneck sweater) fabrics, that dry quickly, are preferable.
- The third layer should protect you against wind and moisture. Choose a jacket, long enough, 100% waterproof, preferably with hood.

If you are traveling in the spring or autumn, please check with your manager for a list of recommended equipment and an approximate weather forecast.

Visa

You need a tourist visa to travel to Russia. It can be issued for a maximum period of 30 days. Your passport has to be valid for at least six months after the expiry date of your visa and to have at least two blank pages.

BaikalNature offers visa support and has created "BaikalNature letter of invitation" package. If you buy a BaikalNature tour, this package is absolutely free; when you buy any other BaikalNature service, you will have to pay for this package.

For questions regarding obtaining an electronic visa, please contact your tour manager.

Money

The Russian currency is ruble. The cost of travel and other services is always fixed in rubles. Please note that cards from foreign banks do not work in Russia at the moment. Tourists can obtain a bank card from a Russian bank in advance or travel with cash. If you have euros or dollars with you, exchange offices will allow you to change them easily in the cities. It is also worth noting that the exchange rate at airports is usually not the most favorable. It is better to exchange in big cities (you can check the current exchange rate online). Important! Only new banknotes without defects or any traces are accepted for exchange.

Tipping

All persons who compose the BaikalNature travel team (guides, drivers, cooks, etc.) are paid a decent wage for their services and do not expect any tips from you. So you have no obligation to leave anything. If you really want to express your satisfaction by leaving a gratuity, and if it is in foreign currency, be aware that torn or glued coins and banknotes cannot be exchanged. Anyway, thank you for your tips, left at your discretion in envelopes.
