

Expedition to the Shantar Islands — Detailed description

Trip Length: 13 Group: 10-20 Departure: Fixed Period: September

Trip overview

The Shantar islands are the unique place that might be considered as one of the wonders of Russia. Relatively few people have heard about this destination and even less visited it. This archipelago is destined for those who seek adventure and dare to test the forces in the ruthless waters of Okhotsk Sea.

We propose to you the real expedition to the islands that are distant from the civilization. There are only 4 men on the islands, they work at the weather station. However, the flora and fauna are really varied. You have possibility to see: thousands of birds, including the « landlord » of this territory – Steller's sea eagle, killer whale, whale, seal, bear, zibeline and others.

The nature and landscapes are really diverse: gentle banks, rocks, taiga, mountains, rivers and lakes – we will see everything that the nature allows to us.

Meet the nature. The pure nature that was waiting for you for millions of years...

Money

The Russian currency is ruble. The cost of travel and other services is always fixed in rubles. Please note that cards from foreign banks do not work in Russia at the moment. Tourists can obtain a bank card from a Russian bank in advance or travel with cash. If you have euros or dollars with you, exchange offices will allow you to change them easily in the cities. It is also worth noting that the exchange rate at airports is usually not the most favorable. It is better to exchange in big cities (you can check the current exchange rate online). Important! Only new banknotes without defects or any traces are accepted for exchange.
