Checklist & Equipment

- You will need in Russia in winter:
 - to protect yourself from the cold weather;
 - to protect yourself from the wind;
 - to protect your feet from moisture;
 - to protect yourself from the sun's reflection from ice and snow.

Allow the system of "three layers":

- The first layer, called "second skin", determines the performance of the other two layers. It will transport sweat to the next layer and dry quickly to avoid cooling after exercise. Therefore forget the cotton retains moisture in the skin and choose underwear in synthetic fabrics.
- The second layer must keep the heat of the body as long as possible. Warm synthetic or mixed (wool or fleece turtleneck sweater) fabrics, that dry quickly, are preferable.
- The third layer should protect you against wind and moisture. Choose a jacket, long enough, 100% waterproof, preferably with hood.

Recommended checklist

- underwear, socks (several pairs)
- pants, long sleeve jacket/tracksuit
- sunglasses
- wet wipes and antibacterial hand gel
- winter (down) jacket and warm pants (windproof and waterproof) / winter suit
- thermal underwear
- comfortable winter boots (suitable for walking on ice and snow)
- fleece jacket/sweater with collar
- warm mittens (for convenience, thin gloves and a second layer of mittens with fur) / ski gloves
- thermal socks
- comfortable warm hat and scarf (snood)
