

New Year's Eve 2023 at Pole of Cold — Detailed description

Trip Length: 9 Group: 6-11 Departure: Fixed Period: December - January

Trip overview

The New Year is the most incredible time of the year. Why not spend this fantastic holiday in the most mysterious, coldest and at the same time largest region of Russia?

We offer you our most unusual New Year's tour. In this tour, you will be able to meet a real Ded Moroz – Chyskhaan, the Yakutian King of the Cold! You will visit the coldest inhabited place in the northern hemisphere – Oymyakon. The lowest temperature ever recorded here is -71.2°C.

The tour begins in the capital city of the region, Yakutsk. From here, you will travel 1000 km along the famous Kolyma Highway – known as the Road of Bones – to Oymyakon.

You will celebrate the New Year in the family of locals. Their kindness and warmth are never affected by the most severe northern frosts. After a gala concert at the local house of creativity, you will celebrate New Year 2022 at the family table of the hospitable hostess. You will see fantastic fireworks after which you will leave for a nightclub at a local club.

In addition, according to tradition, you will pass through a purification ceremony, visit the Museum of Local Lore and the Permafrost Kingdom, receive a certificate for visiting Oymyakon and climb up the observation mountain, from where you can enjoy breath-taking panorama views of the noiseless white expanses of the Oymyakonsky tundra. The most courageous tourists among you will be offered to swim in a non-freezing stream, whose water temperature remains at around 2°C every year.

The purpose of this trip is not just to celebrate the New Year in an unusual, exceptional place, but also to feel the lowest possible temperatures that exist at the end of December or beginning of January. For example, in January 2018, temperatures dropped to -63°C.

The mind-blowing landscapes of a real snow-white fairy tale and the warmest hearts of hospitable locals are a New Year's impression that can give you warm emotions and positive impressions for the coming year!

This program is an expedition. Description of the itinerary is the general plan of the expedition. In the event of any force majeure or severe weather conditions, the organizers may make appropriate changes.

Checklist & Equipment

You will need in Russia in winter:

- to protect yourself from the cold weather;
- to protect yourself from the wind;
- to protect your feet from moisture;
- to protect yourself from the sun's reflection from ice and snow.

Allow the system of "three layers":

- The first layer, called "second skin", determines the performance of the other two layers. It will transport sweat to the next layer and dry quickly to avoid cooling after exercise. Therefore forget the cotton retains moisture in the skin and choose underwear in synthetic fabrics.
- The second layer must keep the heat of the body as long as possible. Warm synthetic or mixed (wool or fleece turtleneck sweater) fabrics, that dry quickly, are preferable.
- The third layer should protect you against wind and moisture. Choose a jacket, long enough, 100% waterproof, preferably with hood.

We recommend you to pack all your stuff in two bags: a small backpack and a large travelling bag.

SMALL BACKPACK: will be useful for carrying your personal belongings during the day (camera, film, personal medication, bottled water, etc.) You will also use it as hand luggage during air travel for all your heavy (to lighten the travel bag in the luggage compartment), fragile (camera, etc.) and necessary (toilet bag, etc.) things.

BIG TRAVEL BAG or BIG BACKPACK: must contain the rest of your stuff. It will be in the luggage compartment during the flight. It will be transported by vehicles.
