

Wrangel Island — Detailed description

Trip Length: 15 Group: 45-50 Departure: Fixed Period: July - September

Trip overview

Have you ever noticed that nature's true treasures are always hidden from us: the pearl hides in shells in the sea depth, gold and diamonds are mined from the bowels of the earth. And our cruise is not an exception. Wrangel Island is one of the most incredible places on Earth. In spite of technological progress, it remains difficult for humans to access. The harsh Arctic safely hides it from human's eyes.

The only way to visit this biosphere reserve of Wrangel Island is to go on cruise – a true museum of Arctic Flora and Fauna. You will have an opportunity to see the bears and walruses. The route passes through the territories where whales feed themselves and where thousands of birds gather in colonies. The island has the richest diversity of arctic flora, including a unique collection of "cold-resistant" plants. And more to that you will get acquainted with the culture of local people and pass through the legendary Bering Strait.

The cruise is held on board of ice-strengthened expedition vessel " Spirit of Enderby ".

Technical description: length - 71.6 m, width - 12.8 m, maximum speed - 12 knots, cabins - 25, accommodation - maximum 50 berths expedition.

However, it can be difficult to exchange traveler's checks, even in cities.

Tipping

All persons who compose the BaikalNature travel team (guides, drivers, cooks, etc.) are paid a decent wage for their services and do not expect any tips from you. So you have no obligation to leave anything. If you really want to express your satisfaction by leaving a gratuity, and if it is in foreign currency, be aware that torn or glued coins and banknotes cannot be exchanged. Anyway, thank you for your tips, left at your discretion in envelopes.
